**WHO**
Targeted towards pediatric residents, however all providers, students, and staff interested in global health and expanding their global health expertise are welcome.

**WHAT**
In collaboration with Children’s National Hospital (CNH) pediatric residency program, this introductory course highlights several areas of global health practice. Specific core content such as Global Health Policy, Emergency Triage and Treatment, Ethics, Malaria and HIV are supplemented by timely and relevant topics. Contributors to the course include GHI and CNH core faculty, as well as locally based programs such as USAID, Save the Children, Johns Hopkins, and local universities.

**WHERE**
Online!

**WHEN**
October 12-16, 8am-5pm

**WHY**
Using the pillars of interdisciplinary collaboration and education this course furthers our core institutional mission: to improve health regionally and internationally; to create innovative solutions to pediatric health challenges; and to prioritize diversity and inclusion while providing quality health care for all of our patients and families.
See you on Zoom!

NEW THIS YEAR!
MINI-SYMPOSIUM:
THE COMPLEXITY OF NUTRITION IN A GLOBAL CONTEXT*

*3 CME/CNE CREDITS WILL BE AVAILABLE

MONDAY, OCTOBER 12, 1:15-4:30PM

Join us for this exciting addition to the *Introduction to Global Child Health Course.* Led by experts in the field from USAID and Children’s National, this symposium will include a dynamic combination of lectures, interviews with specialists, and “hands-on” virtual learning.
